

manto

Manto is a collection of suspension lamps, available in 3 sizes (diameters: 70, 120 and 180 cm - 27 1/2", 47 1/4" and 70 7/8").

An opaline white blown glass sphere contains a LED light source and is supported by a telescopic arm, which protrudes from a painted steel cylinder. In turn, the cylindrical body - through steel tie rods - supports a white stretch fabric laid on a metal ring in a horizontal position.

By operating the telescopic arm, it is possible to move the diffuser in different positions: upwards, leaving it suspended at a distance from the elastic fabric, or downwards, so that the body touches or immerses into the fabric under tension.

The shape of the lamp and the light diffusion varies with each mutual position of these elements.

Manto è una collezione di lampade a sospensione, che si declina in 3 dimensioni (con diametro 70, 120 e 180 cm).

Una sfera in vetro soffiato bianco opalino contiene una fonte luminosa a LED ed è sostenuta da un braccio telescopico, che fuoriesce da un cilindro in acciaio verniciato. A sua volta il corpo cilindrico - attraverso tiranti in acciaio - mantiene in posizione orizzontale un tessuto elasticizzato bianco calzato su un anello metallico.

Azionando il braccio telescopico è possibile muovere il diffusore in posizioni diverse: verso l'alto, lasciandolo sospeso a distanza dal tessuto elastico, oppure verso il basso, di modo che il corpo sfiori o affondi all'interno del tessuto in tensione. Ad ogni posizione reciproca di questi elementi, variano la forma assunta dalla lampada e la luce diffusa nello spazio.

Europe: **SP MAN 070**
18W LED
CRI>90 - 3000K - diffused
~1956 lm ~108 lm/W
dimnable 0/1-10V

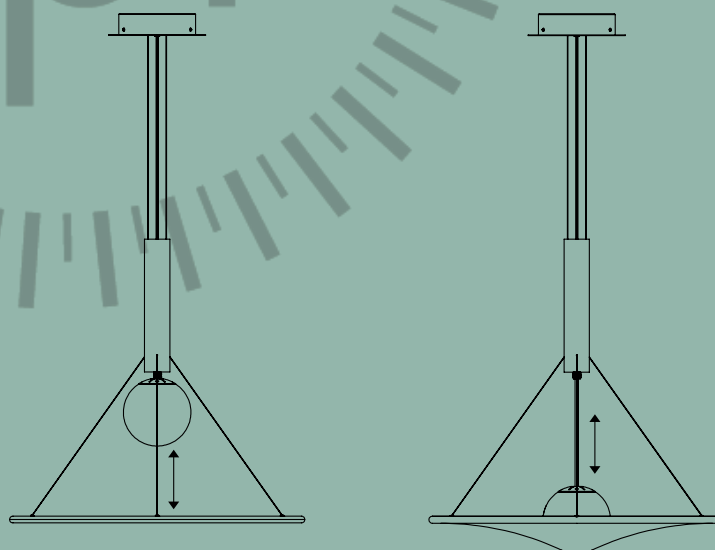

USA: **US MAN 070**
18W LED
CRI>90 - 3000K - diffused
~1956 lm ~108 lm/W
dimnable 0/1-10V

Europe: **SP MAN 120**
24W LED
CRI>90 - 3000K - diffused
~2507 lm ~104 lm/W
dimnable 0/1-10V

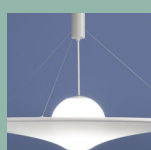

USA: **US MAN 120**
24W LED
CRI>90 - 3000K - diffused
~2507 lm ~104 lm/W
dimnable 0/1-10V

Europe: **SP MAN 180**
28W LED
CRI>90 - 3000K - diffused
~2894 lm ~103 lm/W
dimnable 0/1-10V

USA: **US MAN 180**
28W LED
CRI>90 - 3000K - diffused
~2894 lm ~103 lm/W
dimnable 0/1-10V

FINISHING FINITURA

White fabric / light grey finishes
Tessuto bianco / finiture grigio chiaro
