

STOCHASTIC

design Daniel Rybakken

Type	Suspension
Light source	LED 25W - 3000K - 2360lm dimnable by wall control
Product use	Indoor
Materials	stainless steel rods, brushed aluminum structure, blown glass spheres
Spheres	Metallized or satin white
Description	Composed of glass spheres at different heights, the lamp permits infinite combinations, in a sort of "controlled freedom": each sphere is connected to steel rods of different lengths, which are attached to the ceiling in a creative way, giving rise to always different light clusters.
